

Create a lasting memorial to
your loved one

2020 Edition Issue 2

Foremost is a range of unique ornamental ash caskets in a variety of materials and styles, from the traditional to the ultra-modern. Most of these exquisite items are hand made by craftsmen and all pass stringent quality tests to ensure that they are amongst the finest urns available anywhere. Miniature keepsake versions of many of the urns, as well as several additional styles, are available for use where ashes are to be retained by more than one relative or friend of the deceased.

Also featured is a high quality ash jewellery collection to contain mementos of loved ones.

A series of beautiful memorial books is available in a choice of styles, to record tributes to the deceased.

Finally, seed paper memorial stationery offers a truly unique opportunity to create a stunning floral memorial to a loved one. Bereaved individuals can grow their own garden tribute by planting the detachable adornments from their token or bookmark. Adornments are crafted into a variety of shapes from a handmade paper consisting of cotton, wildflower petals and perennial wildflower seeds. When planted, they will grow and blossom into beautiful wildflowers.

SPECIAL NOTES

REMEMBRANCE ITEMS

The following pages feature our range of exquisitely crafted cremation urns. These beautiful pieces come in a wide variety of materials and in styles that range from the traditional to the ultra-modern.

Every urn is meticulously checked to ensure it is of the highest quality and blemish-free.

Many of the following urn designs are patented to ensure that they cannot be copied; however, it has not been possible to patent all the designs and buyers should be aware that similar products available elsewhere may not be made to the same exacting standards.

All urns shown here are available from stock.

This icon symbolises that the item or range is part of the Funeral Products collection, premium quality-products made under fair working conditions.

The Signature Collection

Each of these urns is a work of art and makes a stunning feature in any setting.

"Lotus Flower"

This stainless steel lotus flower is simply breathtaking... Its sculptural petals surround a central ashes chamber with a circular plate which seals upon assembly with the use of a double-sided adhesive pad.

Colour: Stainless steel

"Wrapped Motif LED"

A glazed ceramic shell gently encases a delicate motif which is illuminated by two LED lights (battery operated). These urns have plugs at the bottom which will need to be sealed appropriately otherwise they will not stay in place.

Apply supplied adhesive around the inner rim of the plug and press into place.

Crystal Urns

Every crystal urn from the collection is made from the world-famous Bohemian crystal. This crystal from the Czech Republic is characterised by having the same sparkle as diamonds.

Each urn is hand blown by an experienced professional and is an exclusive piece of art. The art of glass-blowing has been around for millennia, but is still considered today as a demanding technique which is very difficult to master. This is why each urn has its own unique details, although the basic design always remains the same.

The urns are provided with a stainless-steel stopper, which gives the product an extra elegant look.

Marble Urns

The stone that is used for these marble urns comes from highly-prized stone caves in Asia.

Each urn is finished and polished by hand. As marble is a natural product, no two marble urns will ever be the same.

Marble urns feature lids which rest atop the urn. Lids can be glued in place to permanently seal the urn.

Marble keepsake urns have a plastic plug / screw closure.

Ceramic 'Celest' Urns

The Celest urn range is an elegant, glossy and contemporary take on the classic and symbolic teardrop shape which will complement most interior décor. The urns are artisanally manufactured using premium-quality ceramic. Specially selected ingredients are blended into clay, moulded into an urn, and decorated with an innovative finish.

Ceramic urns have plugs at the bottom which will need to be sealed appropriately otherwise they will not stay in place.

Wooden (MDF) Urns

The design of this wooden urn is characterised by simplicity and modern style in combination with remarkable details.
Made by hand and easy to fill via the base, these urns can be customised by inserting the photo of a loved one.

MDF, or Medium-Density Fibreboard, is a medium density pressed board. In contrast to soft- and hardboard, glue is added when producing MDF board. The very finely ground wood fibres are mixed with synthetic resin glue and pressed in a dry state.
From this arises a plate which is used for manufacturing the urn.

Infant Arboform Urns

Our baby and child urns have been designed to express the essence of childhood, using motifs of innocence and play.

The biodegradable material from which this urn is made 'Arboform' allows you to bury the urn should you so wish (they are designed to biodegrade fully over a period of approximately 7 years). Alternatively, if you prefer to keep the urn close, it will remain suitable for display purposes indefinitely, as it will remain stable until buried.

Customisable Urn Bases

Our customisable urn bases are the perfect way to personalise an urn without having to engrave or damage the urn itself.

Bases have a dark brown/black gloss finish with wood effect platform 4.5cm deep. They come in three sizes (small, medium and large) and are customised using either a silver or gold effect plaque. A meaningful message or name can be engraved on the plaque (engraving advisable, but not limited to, up to approximately 3 lines of 30 characters).

- Provides a stable and solid base for the urn
- Felt pads are applied to the base to prevent scratching to and slippage on the surface the base is displayed on
 - Ideal for use with most urn styles with a circular base

Wooden Miniature Keepsake Urns

These simple but stylish carved oak keepsake urns are a perfect way of keeping cremated remains discretely.

Perfectly sized to fit into the palm of your hand, they contain two hidden recesses within the clever design of the heart. One holds a miniature glass phial, the other can store a lock of hair, a piece of jewellery or other small keepsake items.

Contents are protected beneath clear perspex screens with rubber seals which can be concealed by placing a photo above.

The innovative design slides open with a unique rotating action and uses a discreet and secure magnetic closure.

Each heart comes in an attractive presentation box, complete with soft display stand and velvet pouch.

Cuddle Stones

Ceramic cuddle stones are comforting forms which are soothing to hold in the palm of the hand.

Available in a variety of colours, these cuddle stone keepsakes will hold a token amount of ashes to hold and protect a memory of a loved one.

We supply an adhesive label for the hole. Alternatively, for a permanent seal, a silicone sealant can be injected evenly in the opening on the base by using a sealant gun (not supplied).

Our cuddle stones hold a capacity of 0.05L, stand at 6cm tall and weigh 0.1KG.

Ash Tubes for Green Burial for Scattering

Scattering tubes are specifically designed to provide a practical way for family members and close friends to scatter the ashes of their loved one after a cremation service at their chosen location. As well as being an easy-to-use scattering solution, they are also ideal for green burial or keeping at home as an urn.

Our scattering tubes are available in two sizes: 4L (ideal for adult ashes) and 0.06L (ideal for token ashes).

Even if the decision is to scatter the ashes, a small amount could be retained in a miniature keepsake urn to hold and protect the memory of a loved one. See pages 18-20.

Arboform Urns

The below styles are made from Arboform (a sustainable thermoplastic material).

Arboform is ideal for display purposes but can also be buried as the material is 100% biodegradable.

Arboform remains completely stable until it is buried in soil, after which it will take approximately 5-8 years to break down completely.

Short-Term Biodegradable Urns

Shaw's Funeral Products are pleased to offer environmentally friendly and 100% biodegradable urns which have been designed to biodegrade fully over a short period of weeks.

These styles are handcrafted from biodegradable materials.
When placed in water they will float briefly and sink to the bottom,
where they break down naturally over time.

The sea-urn is made of a water-soluble material.

Titanium Jewellery

The titanium keepsake pendants offer not only striking design, but amazing wearability for both men and women. As lightweight as they are lustrous, these beautiful pieces are crafted from highly durable titanium. Prized for its health benefits as well as its long-lasting beauty, titanium is stronger than steel yet surprisingly lightweight. Titanium is non-magnetic and hypoallergenic, which makes this unique material ideal for everyday wear.

Necklace chain links are not adjustable.

A titanium chain is included with all orders of titanium pendants.

Plantable Seed Paper Memorial Stationery Items

Plantable seed paper memorial stationery offers a truly unique opportunity to create a stunning floral memorial to a loved one.

These tokens consist of detachable adornments – available in the shape of hearts or butterflies – affixed to a backing card with a thoughtful message printed to the face. The adornments are handcrafted using cotton fibre, British wildflower seeds and petals which, when planted, grow and blossom into beautiful wildflowers, creating a perpetual tribute to the deceased.

Full planting instructions are printed on the reverse of the token. Both the tokens and the bookmarks can be customised to the face with personal messages (this service is free of charge on all orders of 200 or more). Company details, messages and logos can also be printed on the reverse of the card at additional cost.

Our artisan paper makers are part of the world's oldest mechanised paper mill - the birthplace of paper's industrial revolution.

However, there is nothing mechanical about the production of our seed paper. Entirely handmade using the traditional method, our seed paper belongs to a bygone era and is totally ecologically sound.

Applications for plantable seed paper memorial tokens or bookmarks:

- As a thoughtful gift to attendees of the funeral, so that every attendee can grow a tribute to your loved one, or retain as a souvenir to remember your loved one by.
- To send to those unable to attend the funeral service, so that they can hold their own memorial service in their own garden.
- For community remembrance ceremonies, e.g. clubs and organisations who want to do a mass planting in memory of someone who has passed.

Wondering what to do with the ashes?

Nowadays, with burial becoming less popular, you are afforded many choices as to what to do with the cremated remains of your loved one.

There are four main options:

- Scatter in a meaningful location (browse our scattering tubes on pages 17 and 21)
- Bury in a meaningful location (browse our biodegradable urns on pages 22-23)
 - Display in the family home (browse our ornamental urns starting on page 2)
- Share between family members (browse miniature keepsake urns on pages 18-20 or ash keepsake jewellery on pages 24-25).

There are also many more imaginative and creative ways to pay tribute to the life of a loved one, which are not outlined here.

Whatever you decide to do, you could retain a small amount of the ashes to wear in a jewellery pendant or to fill a miniature keepsake urn; so the options outlined above are not necessarily mutually exclusive.
